Instructions

1. Print the template on your printer. Make sure you use **100%** for the scale or turn off the scale prior to printing. Using any other setting will make template inaccurate.
2. Carefully cut out the template.
3. Wrap the template around chair or table leg.
4. Locate where the template overlaps the "0" mark on the template.
5. Write down the measurement.
6. This is the diameter of the chair or table leg.
7. Visit chaircaps.com and purchase the correct size glide or cap for your needs.
8. Still have questions? Call us at **561-775-2122** or go to chaircaps.com/info and click on "Measure Round Chair Legs". We are happy to assist you – we can even arrange for samples.
