LCS Products, a chair accessories company specializing in unique products for schools, is featuring its patented Snap-n-Loc[®] Glide Cap with SuperFelt[®].

- ✓ The cap has two halves connected by a hinge. The top half is slotted and slides over the original glide shaft. The bottom half contains the felt and hinges perfectly to contain the metal or nylon bottom of the glide. When you snap and lock the two halves together, it creates a Felt Glide Cap that will stay in place permanently.
- ✓ Never buy another glide cap again. Once the cap is in place, all you need to do is replace the felt. The felts are just a fraction of the cost of our inexpensive glide caps.
- ✓ Our SNAP-N-LOC[®] felt insert chair caps fit 95% of all school chairs, desks and tables.
- ✓ These caps can be installed in seconds without any tools. Install a 4-legged chair in under 30 seconds!
- ✓ The SuperFelt[®] is contained inside a rim to prevent deformation and is impervious to water, oil and most chemicals.
- ✓ The SuperFelt[®] will eliminate noise from sliding chairs (teachers love it!) and keep floors clean from scratching and marring.
